

Heating water with solar energy from the sun is the most cost-effective technology in South Africa. Save money - A SunTank solar geyser correctly sized can save you as much as 50% of your total monthly electricity bill and 80% of your water heating costs. The pay-back on your investment is less than 2 years, leaving thousands of Rands in your pocket, for many years thereafter.

Upgrade to a greener and more energy-efficient water heating system with our top-of-the-line solar geysers. Reduce your carbon footprint and lower your energy bills while enjoying consistent and reliable hot water supply. Our solar geysers are designed for easy installation and long-lasting performance. Invest in a sustainable future with our advanced solar geyser solutions.

Energy Efficiency: Switching to a solar geyser reduces your dependence on electricity or gas, cutting down your energy bills significantly. Our solar geysers convert the abundant solar energy available in South Africa into heat, ensuring that you have hot water whenever you need it without the hefty price tag of traditional heating methods.
