

Solar huawei Malaysia

Is Huawei supporting Malaysia's green energy growth?

Simon Sun, CEO of Huawei Malaysia, emphasized the company's commitment to supporting Malaysia's green energy growth. He highlighted the approaching era of PV and Energy Storage (PV+ESS) parity, where the combination of solar power and energy storage will become the most economical and universal form of power.

Will Huawei Malaysia supply solar inverters to SunView?

The partnership, formalised through a Memorandum of Understanding (MoU), will see Huawei Malaysia supplying solar inverters to Sunview. By integrating Huawei's cutting-edge smart PV solutions, users will be able to receive better and higher yields at lower costs, delivered at an optimum value.

What is Huawei Malaysia partnering with SunView?

The collaboration involves reducing the industrial and commercial carbon footprint of local businesses, through the deployment of Solar Photovoltaic (PV) technology in the country. The partnership, formalised through a Memorandum of Understanding (MoU), will see Huawei Malaysia supplying solar inverters to Sunview.

Why should you invest in Huawei solar?

Huawei's advanced safety features ensure that the rapid expansion of solar infrastructure is both secure and sustainable. By leading the way in safety and efficiency, Huawei is not only empowering Malaysia's renewable energy ambitions but also setting a visionary standard for the future of clean energy across the Asia-Pacific region.

Is Huawei a smart PV company?

Huawei is a global leading provider of fully digitalised smart PV solutions, harnessing more than 30 years of expertise in information and communications technology and serving more than a third of the world's population.

How will a MoU impact Malaysia's solar industry?

According to Mr Chong Chern Peng, the MoU marks an opportunity to bridge the gap in Malaysia's solar industry by assisting in the acceleration of the nation's transition toward green and sustainable energy. "At Huawei, we strive to use clean and renewable energy that boasts low carbon emissions.

(August 2023) The collaboration between Huawei Malaysia and Asiabina Group, a real-estate developer turned provider of renewable energy solutions, stands as a testament to a visionary commitment - a shift towards a more sustainable future.. This video is part of "Better Together," a ...
