

What is the Tunisian Solar Plan?

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also incorporates the ELMED project; a 400KV submarine cable interconnecting Tunisia and Italy.

Where is the first large scale solar power plant in Tunisia?

The first large scale solar power plant of a 10MW capacity, co-financed by KfW and NIF (Neighbourhood Investment Facility) and implemented by STEG, is in Tozeur. TuNur CSP project is Tunisia's most ambitious renewable energy project yet.

Who financed Tunisia's first solar project?

The African Development Bank and the Sustainable Energy Fund for Africa (SEFA), in partnership with the International Finance Corporation and UAE's AMEA Power, today herald Tunisia's first privately-financed solar project.

Why should Tunisia invest in Kairouan solar?

The plant is central to Tunisia's strategy to reduce its reliance on natural gas. It aims to bolster the nation's renewable energy share to an ambitious 35% by 2030, thus the Kairouan Solar project is not just about power generation; it is about regional transformation.

How will a solar plant in Tunisia benefit from debt financing?

The 100-megawatt, \$86 million solar plant located in Tunisia's Kairouan governorate will benefit from up to \$26 million in debt financing from the African Development Bank, including \$13 million sourced from SEFA, a multi-donor fund that provides finance to unlock private sector investments in renewable energy and energy efficiency.

How much money is needed to implement the Tunisian Solar Program?

The total investment required to implement the Tunisian Solar Program plan have been estimated at \$2.5 billion, including \$175 million from the National Fund, \$530 million from the public sector, \$1,660 million from private sector funds, and \$24 million from international cooperation.

AFRICA SOLAR est une filiale du Groupe 3S, spécialisée dans les études et les installations dans le domaine des énergies renouvelables. AFRICA SOLAR offre des solutions photovoltaïques sur mesure, clefs en main, adaptées aux besoins des particuliers et des professionnels (industriels, tertiaire et agricoles).
