Does Guam have a virtual power plant program?

Regulations are described in Guam Code § 8309. As per Guam Code § 8603, GPA must develop a Virtual Power Plant Program. The program would initially be capped at 20 MW and provide an alternative rooftop solar program to address the challenges of the Net Metering program. This program is currently under development.

How much energy does Guam use?

Conclusion Total energy consumption in Guam has been increasing over the past 12 years. In 2021, the island consumed 241 million gallons of imported fossil fuels. Of the total energy consumed on the island, less than 4% is supplied by carbon-free renewable energy.

What data is available on Guam's energy sector?

Introduction This report summarizes the currently available data on Guam's energy sector as of December 2023. It describes primary energy consumption, end uses, energy production, relevant policies, and key challenges, including details on the electric power and transportation sectors.

Does Guam need to retire power plants?

Guam Power Authority is challenged by the need to retire power plants while reliably and affordably delivering power to its customers. The settlement of an EPA Clean Air Act violation requires GPA to retire older fossil-based generating plants while Renewable Portfolio Standards mandate a transition to carbon-free electricity.

Does Guam have military housing?

Guam is the only U.S. Island Area with military housing.<sup>5</sup> Methodology: Data come from the U.S. EIA's Electric Power Annual 2019.

How many Customer-Sited distributed energy resource systems are there in Guam?

Over 2,000 customer-sited distributed energy resource (DER) systems represent significant assets to Guam's renewable energy (RE) generation. Nearly 22 MW of DER generation capacity accounted for 2.6% of total generation/sales and 23% of total RE generation/sales in 2021 (see Table 6).

The project is being developed and currently owned by Korea Electric Power. The company has a stake of 100%. KEP Guam Solar PV Park is a ground-mounted solar project. Contractors involved JA Solar will be the supplier of PV modules for the solar power project. For more details on KEP Guam Solar PV Park, [buy the profile here](#). About Korea ...

The Guam Power Authority is moving ahead with Phase 4 of its renewable energy integration plans and is seeking to get approval for two 25-year renewable energy purchase agreements, one
