

Solar power supplier U S Outlying Islands

As the leading solar provider on St. John, we are dedicated to making solar attractive and accessible to residents and business owners in the virgin islands. Starting with a professional ...

Logistics hub Ocean Point Terminals (OPT) will turn to BMR Energy to build a 10-MW solar project at the terminal in St. Croix, U.S. Virgin Islands. The facility will generate and deliver power to OPT"s marine logistics terminal and storage and blending complex, pursuant to a 20-year lease and operation and maintenance agreement.

ProSolar Caribbean is the premier Solar Energy company serving the U.S. Virgin Island, and we have been for over a decade. We offer a wide variety of renewable energy products and services. We can help you reduce energy costs, go completely off-grid, or both!

As the leading solar provider on St. John, we are dedicated to making solar attractive and accessible to residents and business owners in the virgin islands. Starting with a professional installation, through performance monitoring and comprehensive warranties, our team ensures that your solar system is operating at peak efficiency throughout ...

With the growing intensity of storms in the Caribbean, resilient energy infrastructure now plays a crucial role in the Caribbean's transition to a reliable, clean power system. The Donoe solar farm in St. Thomas, U.S Virgin Islands was originally built in 2015 but sustained significant damage during the 2017 hurricane season.

Island Power Solutions was created to provide affordable and clean power to nation islands. We work with renewable energy production, management of waste residues and water treatment solutions, helping islands to reach carbon neutrality.

The Spanish Town solar farm in St. Croix, U.S. Virgin Islands--in operation since 2015--received significant damage during the 2017 hurricanes. The plant remained offline for nearly 5 months, while grid repairs were implemented, and production was limited to less than 45 percent of its energy capacity once reenergized.

Logistics hub Ocean Point Terminals (OPT) will turn to BMR Energy to build a 10-MW solar project at the terminal in St. Croix, U.S. Virgin Islands. The facility will generate ...

The development of the four solar-fueled power systems will set the stage to scale the Family Islands solar program across the island chain's outlying islands, as well as contribute to the Bahamas achieving a national goal of renewable energy resources meeting 30% of electricity needs by 2030¹.

Solar power supplier U S Outlying Islands

We specialize in developing and implementing solar energy, energy efficiency, and EV charging solutions for communities that make electricity by burning fossil fuel. Enjoy better financial & environmental performance for your business, your team, and the planet!

The development of the four solar-fueled power systems will set the stage to scale the Family Islands solar program across the island chain's outlying islands, as well as contribute to the ...
