

Solar program registration Kosovo

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

Who is Unisolar?

Based on previous personal experiences in energy systems and having it all the necessary European qualifications for photovoltaic systems, the two co-founders established company Unisolar L.L.C., with the aim of reaching the heights of a successful business in the field of renewable energy in Kosovo and wider.

How Unisolar is developing our country?

Here you can see how we are developing our country, with the tireless work of our team ... Unisolar LLC, was founded in January 2021, by electrical energy engineers and the renewed one: Mr. Bujar Guci in Kosovo. Unisolar LLC was founded seeing the need for a serious company, which would be closer to the customers in the field of renewable energy.

This is the first large-scale photovoltaic system in Kosovo that can increase the installed capacity of photovoltaic energy from the current 10.1 MW (2022) to up to 110.1 MW. The project contributes to the achievement of these following United Nations Sustainable Development Goals:

Unisolar L.L.C. is the exclusive representative of the company AE SOLAR GMBH, for photovoltaic panels in the Republic of Kosovo and Albania. This made us proud as a company, motivating us to achieving the highest possible successes in the field of renewable energy.

Unisolar L.L.C. is the exclusive representative of the company AE SOLAR GMBH, for photovoltaic panels in the Republic of Kosovo and Albania. This made us proud as a company, motivating ...

Furthermore, a public call for support to micro, small, and medium enterprises in investing in renewable energy systems - water heating solar system will be launched soon. For more information and additional clarification regarding the application, please contact us in writing via e-mail: info.bvencionet@rks-gov

The Community Solar Energy Program (CSEP) Registration Portal is open to new registrations. Pursuant to the Clean Energy Act of 2018 (L. 2018, c.17) and the Solar Act of 2021 (L. 2021, ...

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants. In line with the EU Global Gateway initiative, the project will also benefit from a EUR29 million loan from the KfW ...

Kosovo has prioritized the development of solar and wind resources under the Energy Strategy 2022-2031, with the construction of a 100 MW solar PV plant being devised among numerous priorities foreseen in the Energy Strategy, and this auction ...

Project Title: Solar4Kosovo - Photovoltaic Plant Project Financing: WBIF Grant WB-IG07-MNE-SOC-01
EUR 11,389,224 EIB Loan EUR 18,000,000 EIB ERI External Grant EUR 2,500,000 National Contribution
Own Contribution EUR 32,433,851 Total EUR 64,323,075 Total Gra

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the construction one of its largest solar photovoltaic plants near Pristina - with a ...

Kosovo has prioritized the development of solar and wind resources under the Energy Strategy 2022-2031, with the construction of a 100 MW solar PV plant being devised among numerous priorities foreseen in the Energy Strategy, ...

Furthermore, a public call for support to micro, small, and medium enterprises in investing in renewable energy systems - water heating solar system will be launched soon. For more information and additional ...

This investment project will install a solar photovoltaic plant of up to 100 MW capacity on former ash dump fields near Kosovo A thermal power plant. This will be the first large-scale solar photovoltaic plant in Kosovo and will increase installed capacities tenfold from 10.1 MW to ...

The Ministry of Economy in Kosovo has initiated a subsidy program for households to install solar thermal systems for heating sanitary water. The first phase of applications is open until August 31.
