

Solar pure energies inc French Southern Territories

Where is Pure Energies located?

With locations in Toronto, Mississauga and San Francisco, we are now proudly representing Canada in the rapidly expanding international residential solar market. At PURE Energies, our job is to help homeowners save money and go solar by providing the best options straight from the leading solar providers.

Who is Pure Energies?

PURE Energies is committed to being the most trusted energy advisor to homeowners by facilitating the adoption of solar energy and home conservation products across North America for the benefit of communities and future generations. Our mission is to dramatically increase the rate of residential solar adoption across North America.

Who produces solar energy in France?

An expert in photovoltaic and agrivoltaic development, TSE is one of the main producers of solar energy in France. Created in 2016, our solar farms represent the equivalent of the electricity used by 155,000 people annually. In 2021, TSE inaugurated the Marville photovoltaic power plant, the second largest power plant in France.

Why do we produce the least expensive energy in France?

We produce the least expensive energy in France. Our energy is carbon-free, renewable, unlimited, decentralized, non-relocatable and more than 95% recyclable, contributing to the fight against global warming and supporting the agricultural transition. TSE is a French tech company and a reference in photovoltaics and agrivoltaics.
