Roger Lin, NEC: Solar-and-storage is obviously a big story nowadays. The fundamentals have always been the same: that the sun comes up and goes down, you have clouds, you can't always consume that electricity being generated at exactly those times. Putting storage with solar just makes sense, it's very simple.

In conclusion, the "Solar & Storage Live" is a premium international platform for all stakeholders in the field of solar energy and energy storage for knowledge exchange, networking, and business transactions, making a substantial contribution to the development and dissemination of sustainable energy solutions.
