

## Solar tenders in Guinea-Bissau

Transforming Guinea-Bissau towards an inclusive, sustainable economy requires establishing an enabling environment for private investments and providing essential infrastructure and services, including electricity.

The Lomé-based African Biofuel and Renewable Energy Company has extended the closing date for a tender to supply a 20MWc solar photovoltaic (PV) plant at Bissau and two 1MWc plants at Gabu and Canchungo. Bids are now due by 8 May.

The Guinea-Bissau Solar Energy Scale-up and Access Project will work on the development of solar energy generation and network enhancement, including the preparation and implementation for utility-scale ...

The United Nations Development Programme (UNDP) would like to solicit offers from qualified bidders to facilitate smart and clean energy solutions to communities in Cacheu Region (Parque Natural dos Tarrafes do Rio Cacheu (PNTC)) by supplying, installing, commissioning (including complete civil works), and after-sales services for multiple ...

The Guinea-Bissau Solar Energy Scale-up and Access Project will work on the development of solar energy generation and network enhancement, including the preparation and implementation for utility-scale solar parks and upgrade and expansion of solar grid infrastructure.

Electricity-starved Guinea Bissau will get \$48m from the International Development Association, Green Climate Fund and Esmap to catalyse solar energy generation and improve on low levels of electricity access.

Learn about the World Bank's \$35 million grant to Guinea-Bissau for a solar energy project aimed at enhancing electricity access and sustainability through solar power generation and infrastructure development.

The World Bank Group (WBG) has launched a tender for consultants to conduct feasibility studies on four solar photovoltaic plants to be developed near Bissau, Gabu, Cacheu and Bafata. Expression of interests are due to be submitted by 25 May.
