Composition of Austria's Energy Mix. The energy mix in Austria has been based on long-term political planning concepts for a long time. The strong affinity for central planning of energy policy can already be found in both the 1948 Coal Plan and the first comprehensive National Energy Concept in 1969 which was not adopted due to various conflicts. . However, ...

Ember is an energy think tank that aims to accelerate the clean energy transition with data and policy. Ember is the trading name of Sandbag Climate Campaign CIC, a Community Interest Company registered in England & Wales #06714443.
