Who is Soler group?

At the forefront of technological innovation in its sector, the SOLER Group is a pioneer in the production of renewable carbon and a major player in the development of biorefineries. Our mission is to promote a climate neutral industry while fostering the growth and well-being of our forests.

What is Soler group & why is it important?

Agriculture is a vital sector of the modern world and plays a crucial role in food supply chains. With its biocarbon products, the SOLER Group develops solutions that improve soil quality, soil fertility and thus plant productivity.

What is the Soler group's biorefinery 1?

Moreover, this production method enables the Group to supply with green electricity the equivalent of 5,000 households. In 2012, the SOLER Group's biorefinery 1 is successfully implemented in Gy  -sur-Seine (Eastern France).

Who are the Soler-my brothers?

After having developed their activity in Brazil, the Soler-My brothers decide to design and build a new sustainable technology in France. The objective is to deliver big volumes with a high energy yield in an environmental-friendly way.
