

Photovoltaic through roof and farm installations has been seen as the best renewable energy source for Seychelles in its target to achieve 15% renewable energy by 2030. It was Joao Maciel from Energias de Portugal (EDP) who said this on Wednesday during the second consultative meeting for an Electricity Master Plan for Seychelles.

In the past three years, the Seychelles has increased its installed solar PV capacity more than fivefold to 12MWp, or around 4% of national power demand, saving millions of dollars in liquid fuel imports in the process.

The remote island of Alphonse is now completely powered by the largest photovoltaic farm in Seychelles, meaning diesel fuel is no longer needed to make electricity, said a top official of the Islands Development Company.

Half of the power produce by the new facility, which is the country's second-largest solar plant after the one on Ile de Romainville, will be absorbed by the Four Seasons Resort on the island. It is the first phase of the IDC's energy master plan which will be followed by another photovoltaic solar farm on Ile Platte.

Whether you are looking for solar panels, inverters, solar batteries, or solar water pumps, Sona Solar Zimbabwe has a range of solutions to suit your needs. Contact - Sona Solar Zimbabwe ...

We are experts in island micro-grids and heavy-duty tropical solar PV systems. See our partner Swimsol website for more information regarding solar farms and floating PV. ESS has been installing photovoltaic (PV) systems in Seychelles since 2012 and provides renewable energy products and energy efficiency consultancy.

Sona Solar Zimbabwe, a leading provider of solar energy solutions, is at the forefront of this change with its innovative energy storage systems designed to support Starlink satellite ...
