

St Kitts and Nevis borg energy storage

With the activation of this state-of-the-art energy storage system, St. Kitts and Nevis is poised to unlock a host of benefits that will propel it towards a greener and more sustainable future. By storing excess energy generated during peak production periods, the system ensures a consistent and reliable power supply, even during periods of low ...

The Government of St. Kitts and Nevis, the state-owned St. Kitts Electric Company and Leclanché SA have broken ground on a landmark solar generation and storage project that will provide between 30-35% of St. Kitts baseload energy needs for the next 20-25 years while reducing carbon dioxide emissions by more than 740,000 metric tons.

Door nu te reserveren zorg je dat jouw Borg erbij zit als we in het derde kwartaal van 2024 de eerste Borg-systemen gaan plaatsen! Let op: De komende maanden ligt onze focus nog volledig op het technisch optimaliseren van de Borg. Nu reserveren betekent dat we in Q2 van 2024 contact met je opnemen voor de Borg Inventarisatie.
