Nitor Energy A/S 2021 Annual Report 05 content The journey has just begun! Nitor Energy has just closed its first full year of trading, and what a year it has been! The main objective of 2021 was to establish a robust 24/7 gas trading team and to commence the establishment of a 24/7 intraday power trading team. We now have a very well ...

3 ???&#0183; Key issues under discussion include climate resilience, sustainable development, renewable energy, trade and investment, and the advancement of bilateral and multilateral ...

When we created Nitor's Power team, the foundation was our many years of experience in gas trading - and the vision to create new opportunities in a volatile power market. Using Nitor's proprietary ETRM system, the Power Team trades 24/7 with short-term capacity at auctions.

With our holistic view of energy prices across time and location, Nitor was able to dampen price fluctuations and move gas to where it was most needed. Trading 24/7, Nitor provided liquidity continuously throughout the year, and as physical traders, Nitor took the delivery risk from suppliers in the West and moved gas across the continent

This is the Energy Report Card (ERC) for 2022 for St. Vincent and the Grenadines. The ERC provides an

overview of the energy sector performance, highlighting the following areas:

- o Installed Conventional and Renewable Power Generation Capacity
- o Annual Electricity Generation, from Conventional and Renewable Plants

3 ???&#0183; Key issues under discussion include climate resilience, sustainable development, renewable energy, trade and investment, and the advancement of bilateral and multilateral partnerships. Notably, the year 2024 is the CARICOM- Japan Friendship Year, commemorating the 30th anniversary of the first CARICOM-Japan Consultation.
