

Fiji's transport sector is completely dependent on fossil fuels with fuel import bill equivalent to an average 58 % of export earnings and taking up 21 % of total import bill. The smallness of Fiji and dispersed islands within Fiji group leads to many challenges to have accessible, affordable and sustainable energy supply.

Fiji Water, Energy, and You: Deconstructing a Global Supply Chain. Nov 18, 2008 "It's so cool that FIJI is sponsoring an event like this. FIJI is my favorite water!" -Kanye West. The global market for bottled water amounts to approximately \$100 billion in sales annually and consists of an estimated 154 billion liters of fresh water ...

The Renewable Energy Development Unit is tasked with finding and monitoring potential renewable energy sources in Fiji for potential investment. Currently, several monitoring sites are measuring wind speeds around Viti Levu. In addition, the unit assists villages with monitoring potential hydro sources (usually below 10kW) as a supply of ...

The impact of the energy sector on Fiji's macro-economy through high and volatile fuel prices and high import payments is significant. The need to reduce reliance on imported fuels and thus safeguard foreign reserves is considered key in ensuring macro-economic stability for Fiji. This provides a natural drive for Fiji to find alternative ...
