Have a friend that has Sunpower SPR-M425 panels with the integrated Enphase IQ7HS microinverters. He had a pine cone drop on one of them and break it. Was going to help him replace it as the company that installed wants \$1000 to replace. I was able to find Maxeon 425 watts panels that appear the same for a much more reasonable price.

I was told by 2 installers that the reason my initial quote was so high was because of the sunpower panels being a premium "Ferrari" type panel. This same installer quoted me a slightly lower grade panel but told me the price was 34k before the ITC and my mouth literally hit the floor, this was exactly my main concern when i got all the higher ...
