

What makes sustaingroup different from sustainpower?

The SustainGroup's brands integrate complex, clean energy technology in rugged packages, ensure turn-key delivery and provide operations and service supported by financing solutions. SustainPower provides innovative and sustainable energy solutions that empower businesses and communities.

How does the Energy Transition Fund work in Greece?

Most of this support is delivered through the Energy Transition Fund, established in 2021 to fund a variety of subsidies for electricity, natural gas, heating oil and transportation fuels to combat energy poverty and reduce the impact of high energy prices. Greece has notable dependence on fossil fuel imports from Russia.

Are fossil fuels still a major energy source in Greece?

However, fossil fuels are still the dominant energy source in Greece, and strong efforts are needed to reduce fossil fuel demand in line with GHG emissions targets. From 2010 to 2021, the share of fossil fuels in energy supply fell from 90% to 82% of total energy supply (compared to an IEA average of 78% in 2020).

How many fossil fuel subsidies did Greece provide in 2020?

However, the OECD estimates that in 2020, Greece provided over EUR 1.9 billion in fossil fuel subsidies. From 2015 to 2020, fossil fuel subsidies decreased by 14% because of reductions in direct transfers supporting oil-fired electricity generation on non-interconnected islands and lower spending on heating allowances.

Can Greece achieve energy savings through 2030?

Building on the experience of other IEA member countries, Greece could improve the scheme and increase energy savings through 2030. As the Greek building stock is older than the EU and IEA average, it presents a notable opportunity to achieve energy savings.

What is Greece's energy policy?

Looking forward, Greece's energy policy focuses on boosting the use of renewable energy, especially for electricity generation, in tandem with increasing the share of energy demand covered by electricity, especially for transport and heating and cooling.
