

What is the energy-related products directive (ErP)?

The EU's Energy-Related Products (ErP) Directive (2009/125/EC) applies to all products that use, generate, transfer or measure energy. TÜV SÜD can evaluate consumer products for compliance with the environmental and energy efficiency requirements of the ErP Directive.

Who is energy-related products (ErP) Directive 2009/125/EC?

Energy-related Products (ErP) Directive 2009/125/EC (Formerly EuP) We are the leading Energy-related Products (ErP) Directive authority providing easy and cost-efficient ErP compliance evaluations and declarations for mandatory CE Marking requirements.

What is The ErP directive?

The EU's Energy-Related Products Directive (ErP Directive 2009/125/EC) is an eco-design directive and applies to most products that consume energy throughout their lifecycle - from dishwashers to household electronics, to air conditioners, boilers and much more.

Where can I find a reliable energy provider in Switzerland?

To find a reliable energy provider in Switzerland, you should contact your municipality or simply search online. Switzerland has a well-developed energy network that serves homes and businesses across the country, with companies typically serving a canton or city area.

What are energy-related products (ERP) requirements?

The Energy-related Products (ErP) Directive does not set binding requirements on products by itself. Instead, it sets requirements by implementing measures adopted on a case-by-case basis for each product group. The tests include energy efficiency, performance, endurance, luminous efficacy, ballast efficiency, utilization factor, and so on.

What is an energy-related product?

According to the European Commission, an energy-related product is any energy-using product or energy-saving product "having an impact on energy consumption during use." ErP Solutions - Compliance
