

Original Solar Batteries in Uganda are becoming increasingly popular as an alternative energy source due to their multiple benefits. With over 90% of Uganda's population without access to electricity, the country has been exploring various ways to bridge the gap by utilizing renewable energy sources such as solar power.

Solar power is arguably the cleanest, most reliable form of renewable energy available[3]. In Uganda the sun's rays are almost directly overhead due to its location along the equator and has average temperature of 21 °C and 23 °C (70 and 73 °F)[4][5][6]. Uganda is endowed with 5-6 kWh M2 radiation 7 per day on flat surfaces [7]. The ...
