

Temasek energy Rwanda

Does Temasek have a carbon credit project in Rwanda?

GenZero, Temasek's decarbonisation-focused investment subsidiary, has inked a collaboration agreement with carbon credit certification body Gold Standard, the Rwanda Green Fund, and the Rwanda Environment Management Authority to develop a pipeline of Article 6-compliant carbon credit projects in Rwanda.

What makes Temasek a sustainable investment platform?

The decarbonisation-focused investment platform traces its beginnings to 2017, when Temasek established a dedicated sustainability team as a "test bed" for sustainability-focused strategies, investments and solutions.

Why did Temasek create a climate platform?

This was driven both by the urgency for solutions to the escalating climate crisis, and Temasek's broader commitment to sustainability. With climate solutions still nascent, the platform was envisioned as an independent entity, he says.

Is Temasek launching genzero?

Singapore, 6 June 2022- Temasek today announced the launch of GenZero, a wholly-owned investment platform company dedicated to accelerating decarbonisation globally.

Can Temasek achieve net zero?

Temasek Steve Howard, Chief Sustainability Officer Steve Howard said: "GenZero expands Temasek's focus on deploying capital to catalyse solutions for a better world. Achieving net zero globally will require deployment of around US\$5 trillion annually by 2030, to rapidly adopt and commercialise sustainable energy solutions.

What has Temasek done for a living?

Temasek has participated in several of these initiatives over the past few years, including launching Decarbonization Partners, a climate solutions-focused VC and private equity partnership with BlackRock, and joining Brookfield's net zero-focused impact fund, Brookfield Global Transition Fund, as a founding investment partner.
