Our extreme flexibility allows us to satisfy different sectors, where there is the request of apertured films and laminates for filtration or as a support for other materials. To better serve all South & Central America markets we have also started the production in Chile, thanks to our Joint Venture with the company Winpack.

Our mission is to pioneer sustainable energy solutions through the production of biogas and green hydrogen space. We are dedicated to driving the transition to a cleaner, more resilient future by harnessing the power of renewable resources.
