

Why is Bahrain investing in renewables?

Bahrain is also beginning to ramp up investment in renewables as it works towards its goal of reaching net-zero carbon emissions by 2060. The spike in oil prices in early 2022 could offer further incentive for Bahrain to expand its green energy capabilities. In September 2021 Bahrain announced plans to restructure its oil and gas industry.

Why is Bahrain reorganizing its oil & gas company?

Bahrain's utilities segment is driving demand for new infrastructure and investment due in part to renewable energy and efficiency strategies. The government is restructuring its oil and gas holding company, Bapco Energies.

Will Bahrain invest in alternative energy sources?

Investment in alternative energy sources is also set to expand. Bahrain is monitoring advancements by market pioneers in the hydrogen industry, taking a prudent approach before making significant commitments in this potentially transformative segment.

Why is Bahrain getting a boost from downstream developments?

The industry is receiving a boost from downstream developments, including the modernisation of the Sitra refinery, located south of the capital Manama. Bahrain's utilities segment is driving demand for new infrastructure and investment due in part to renewable energy and efficiency strategies.

Does Bahrain have a business relationship with Chevron & Halliburton?

Bahrain has engaged US firm Halliburton to drill two offshore appraisal wells to evaluate the commercial viability of the field, and the kingdom maintains a memorandum of understanding with Chevron to serve as a knowledge partner.

Who is TGC Renewables. TGC Renewables, originally The Green Company, was founded by Ben Cosh and Rob Denman in 2006. Their ambition was to have an impact on climate change and energy security by making renewable energy financially viable and accessible to everybody - without asking them to change their 21st century lifestyles. Backed by the Constantine Group, ...
