Why did TW (Tongwei) solar get a Fortune Global 500 listing?

TW (Tongwei) Solar's Fortune Global 500 listing, the first for a photovoltaic company, undoubtedly in part represents the photovoltaic industry's rapid development, and also marks the beginning of an historic new journey for industry and enterprise alike.

How many PV companies are in China?

China has a total of 133 companies on this year's list. Among them, Tongwei Group, with its robust manufacturing capabilities, has once again secured its place on the Fortune Global 500 list, filling the gap for Sichuan province's manufacturing sector in this ranking and becoming the first PV enterprise globally to achieve this feat.

Is TW (Tongwei) solar a 'number one' photovoltaic company?

Inclusion as the first photovoltaic company in the Fortune Global 500 marks out TW (Tongwei) Solar as the industry's true "number one". According to its annual report, TW (Tongwei) Solar ranked first in the photovoltaic sector by both revenues and net profits in 2022.

How will China's photovoltaic technology impact international cooperation and investment?

Given the pace of development of recent years, China's photovoltaic technology is expected to make a further leap in the scale of international cooperation and investment, focusing on BRI partner countries where the market prospect for new energy is broad, industry experts said.

Does China need a twelfth 5-year plan for PV waste management?

In the case of China, the national high-tech R&D program for PV recycling and safe disposal research has recommended the formulation of policy and technology development regarding PV waste management under the twelfth 5-Year Plan; however, the same is yet to be implemented.

Are Chinese photovoltaic companies embracing low-carbon development?

Photo: Courtesy of UNDP China Chinese photovoltaic companies are ramping up efforts to embrace the low-carbon development trend in countries along the Belt and Road against the backdrop of China's commitment to make the Belt and Road Initiative (BRI) a platform for advancing sustainable development.
