

# Togo total energies solar products

What is the energy sector in Togo?

The page below gives an overview of the energy sector in Togo. The majority of Togo's generation capacity is thermal. Togo generates some of its own electricity but imports the majority of its needs from Nigeria and Ghana.

Is the new Togo solar power plant sustainable?

H.E. Mohammed Saif Al Suwaidi, Director General of ADFD, said: "This new Togo solar power plant truly reflects the level of sustainable impact we can achieve through the ADFD and IRENA renewable energy development program.

What is Togo's main source of energy?

With a population of some 8.2 million people, Togo has traditionally relied on biomass as the dominant source of energy, which is a major contributor to pollution in the country.

How much does electricity cost in Togo?

Power Africa recently worked with the Government of Togo to make grid connections more affordable for all. Togolese households saw a 100-fold DECREASE in upfront electricity connection costs, paying 1,000 CFA (\$1.60) instead of 104,000 CFA (\$167.00), following Power Africa's support to Togo's Ministry of Energy to launch Fonds Tinga.

Who developed AMEA Togo solar?

The plant was developed by AMEA Togo Solar, a subsidiary of AMEA Power- a global renewable energy developer based in the UAE. IRENA remained heavily involved in the project throughout the process, brokering discussions between the Togolese government, ADFD and AMEA Power, and presenting solutions to construction and financing challenges.

What products do you sell in Togo?

In Togo, we retail specialty, petroleum and petrochemical products to our business customers. In Togo, we have a network of approximately 90 service stations, where we retail our fuel and products, and offer related services. In our service stations, we also sell distributed solar solutions to low-income communities.

AMEA Power has announced the official commissioning of a 50MW solar PV plant in Blitta, Togo, marking the country's first utility-scale renewable energy project developed by an Independent Power Producer (IPP). The solar plant reached commercial operation within 18 months of signing the Power Purchase Agreement, in spite of the COVID-19 pandemic.

AMEA Power has announced the official commissioning of a 50MW solar PV plant in Blitta, Togo, marking the country's first utility-scale renewable energy project developed by an Independent Power Producer ...

Our wide range of products and services help our business or retail customers optimize their transportation experience and operations. They can rely on our expertise every day through our global network of service stations; our line-up of fuels, lubricants, bitumen, natural gas, special fluids and fuel additives and our power and solar photovoltaic solutions.

One of the largest solar plants in West Africa to deliver clean energy to nearly 160,000 Togolese homes and businesses. Abu Dhabi, United Arab Emirates, 22 June, 2021 - The government of Togo has inaugurated one ...
