Are Trojan solar batteries good?

The Trojan solar signature line of deep cycle flooded lead acid batteries provide outstanding performance day in and day out. They're designed to deliver maximum sustained performance, long life and increased energy and are ideal for off-grid, grid-tied and unstable grid environments.

Where are Trojan solar batteries used?

Our solar batteries are used in residential, rural and commercial applications around the world. Remote home sites with no access to electricity often depend on off-grid renewable energy systems. Trojan's deep cycle batteries can provide a reliable, cost-effective power source to satisfy the energy needs of these homes.

Who founded Trojan batteries?

Founded in 1925 and headquartered in Santa Fe Springs, California, by co-founders George Godber and Carl Speer. Trojan initially began manufacturing automotive batteries and later moved into building batteries for commercial trucks. In the 1940s, Dick and Ray Godber joined the company, ushering in the second generation of family leadership.
