

Can Tunisia build a large-scale solar project?

Tunisia's Ministry of Industry, Mines and Energy has kicked off a new procurement exercise for large-scale solar. Tunisia's Ministry of Industry, Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW.

Does Tunisia support solar?

Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019. The country's cumulative installed PV capacity stood at just 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

When do solar projects start in Tunisia?

Interested developers have until Jan. 15 to submit their project proposals. Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019.

Tunisia's ambitious plan to increase renewable energy production is geared toward reducing its overreliance on imported gas for its power generation that threatens its energy security. The Kairouan Solar Project will be the first milestone to achieve the government's plan and will pave the way for further private investments in the sector.

WASHINGTON, July 31, 2024 -- The Multilateral Investment Guarantee Agency of the World Bank Group (MIGA) has issued a guarantee to AMEA Power Ltd. of the Cayman Islands for its investments in Kairouan Solar Plant, SARL in Tunisia. The \$23.5 million guarantee covers the risks of transfer restriction and currency inconvertibility, expropriation, war and civil ...

Progress at all five of the large solar photovoltaic concessions first launched in 2019 is an indication that Tunisia's renewable power sector may be moving forward despite extremely difficult political conditions. Scatec's farm-out of a stake in its two projects to Japan's Aeolus represents a major new commitment, backed by carbon credits along with debt financing.

Scatec and Toyota Tsusho - Aeolus join forces for Tunisia solar projects, Scatec ASA, a leading renewable energy provider, and Aeolus SAS, part of the Japanese conglomerate Toyota Tsusho Group, have signed a partnership agreement to jointly develop and own renewable energy projects in Tunisia.

Tunisia takes a significant step towards renewable energy with the inauguration of its first 1 MW photovoltaic solar power plant in Djerba. The project, costing 3 million dinars, ...

Solar Energy in Tunisia. Tunisia has good renewable energy potential, especially solar and wind, which the government is trying to tap to ensure a safe energy future. The country has very good solar radiation potential which ranges from 1800 kWh/m<sup>2</sup>; per year in the North to 2600kWh/m<sup>2</sup>; per year in the South.

Scatec and Toyota Tsusho - Aeolus join forces for Tunisia solar projects, Scatec ASA, a leading renewable energy provider, and Aeolus SAS, part of the Japanese conglomerate Toyota Tsusho Group, have signed a ...
