What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

How much of the US Virgin Islands' electricity is generated by solar?

In 2020, about 20% of the US Virgin Islands' electricity was generated by renewables. Approximately 80% of this renewable capacity came from customer-installed, small rooftop solar panel systems, while the remaining 20% came from utility-scale solar energy facilities.

What is the main source of energy in the Virgin Islands?

In the U.S. Virgin Islands, nearly all of the energy is provided by imported petroleum products, with about 70% of petroleum consumption being distillate fuel and residual fuel.

Why does the US Virgin Islands import petroleum products?

The US Virgin Islands imports nearly all of its energy needs in the form of petroleum products.

Do St Thomas and St Croix have electricity?

As of late 2014, both St. Thomas and St. John were served by one electrical grid run by the Virgin Island Water and Power Authority (WAPA). St. Croix, however, has a separate electrical grid in the WAPA service area. More than 1,000 distributed renewable energy systems were connected to the WAPA grid.

What is the average price of electricity on Virgin Island?

The average price of electricity for US Virgin Islands residents was approximately 41 cents per kilowatt-hour in early 2022. This was almost three times higher than the U.S. average power price of 15 cents per kilowatt-hour.

Christiansted National Historic Site was established in 1952 as the first unit of the National Park Service in the Virgin Islands of the United States. Covering over seven acres the park tells the stories about Danish economy and ways of life, and the interactions of people in Europe, Africa, West Indies, and North America during the Danish era ...
