The price of the off-grid solar system varies from Rs. 41,442 for 1kW solar system to 7 Lakh for 10 kW solar system with the installation of the complete system. The price of the solar systems depends on the capacity of the solar system. Subsidy: The government of India wants to promote green energy as much as possible.

How much does an off grid solar system cost?

Off grid solar power systems allow you to be completely independent from the grid. Great for rural homes and businesses. Prices start from \$15,000.

Should you buy an off-grid solar system in South Africa?

If you purchase an off-grid solar system in South Africa, you won't be connected to Eskom's power grid. You'll have zero access to any type of power grid. The advantage of a stand-alone system is that the cost of initial installation is greatly reduced due to the system not having to be connected to a power grid.
