

Venezuela zte outdoor cabinet

Are ZTE cabinets scalable?

All of ZTE's small cabinets are designed with scalability, supporting the ODF capacity redundancy of 50%-85%, 1+1 redundancy backup for the power rectifier, heat dissipation of high-power XGS-PON cards, and 2-5.2 hours of backup power when the equipment operates in its full configuration.

Why should you choose ZTE outdoor cabinets?

To address harsh natural environment challenges, ZTE's outdoor cabinets are specially customized to meet the requirements of extreme climatic environments, such as high temperature, high humidity, and high salt fog corrosion.

What is ZTE light cabinet solution?

Light Cabinet Solution Based on years of experience in access network deployment, ZTE provides the Light Cabinet solution to customers to implement economical and efficient deployment of small-capacity outdoor sites. This solution has four highlights: light, reliable, reusable and sustainable.

What is a ZTE Olt cabinet?

ZTE's small OLT cabinets use an aluminum enclosure with outstanding anti-corrosion performance and is at least 30% lighter than the galvanized iron cabinet of the same dimensions. They support flexible installation modes such as pole-mounted and wall-mounted installation.

What are ZTE's small-capacity outdoor Pon Olt cabinets?

ZTE's small-capacity outdoor PON OLT cabinets can use power supply resources of the existing sites. The cabinets can be wall-mounted or pole-mounted, facilitating in-situ installation.

What products does ZTE offer?

In addition to the small-capacity OLT outdoor cabinets, ZTE can also provide end-to-end FTTx series products covering the EMSs, cabinets, OLTs, ODNs and ONTs to meet the overall network construction requirements of operators.
