

Wallis and Futuna, an overseas collectivity of France in the South Pacific, may not often hit headlines when it comes to global sustainability efforts, but this group of three volcanic tropical islands is making strides in protecting its environment and ...

Collectivité des îles Wallis et Futuna ) Collectivité d'outre-mer; COM )

Map with solar irradiation and PV power potential in Wallis and Futuna. The GIS data stems from the Global Solar Atlas (). The link also provides a poster size (.tif) and midsize map (.png). The Global Solar Atlas is continuously updated.

These newsletters reveal Wallis and Futuna's heightened vulnerability as rising sea levels and extreme weather increasingly threaten its ecosystems and communities. Our findings applied the latest CMIP6 climate hazard projections and marine and atmospheric variables analyses to highlight blue carbon activities as a vital climate mitigation ...

A key concern for Wallis and Futuna is an aging population with consequent economic development issues. Very few people aged 18-30 live on the islands due to the limited formal employment opportunities. Improving job creation is a ...
