

Zambia green energy company

How can we help Zambia achieve a greener future?

We are taking our first steps to guarantee widespread electrification in Zambia while contributing to the country's energy transition. A constantly growing share of renewable energy is providing a decisive push to the energy transition while guiding the country towards a greener future. Would you like to work with us?

What is energy in Zambia?

Energy in Zambia is the production of energy and electricity, for consumption or export. The Energy Regulation Board (ERB) has the mandate to balance and safeguard the interests of all energy stakeholders.

When will Zambia issue its first green bond?

Zambia's Copperbelt Energy Corporation (CEC) will issue the first green bond for Zambia by the end of the year. A \$54 million note is to be sold as part of a \$200 million green bond programme.

CEC Renewables, a subsidiary of the Copperbelt Energy Corporation (CEC), has announced the issuance of its second Green Bond tranche, valued at USD 96.7 million. This milestone comes exactly one year after the issuance of the first tranche in 2023, showcasing CEC's steadfast commitment to addressing Zambia's energy needs through
